

## Marlee Resources

Is proud to be delivering high quality earthmoving projects across the mining sector.

With an ever-increasing fleet of Company Owned Caterpillar equipment, and access to more.

Marlee Resources is your genuine, 100% INDIGENOUS OWNED EARTHMOVING EXPERT.

Although a relatively new division of an already established business, the key to our Mine Services success has been through building a team of expertise with decades of experience in the Western Australian Mining Industry.

Our key personnel are not only earthmoving experts, but individuals who understand and embrace the importance of safety, compliance, Environmental and cultural sustainability through project delivery.

## Exploration

Marlee have the resources and know how to carefully open up your next area for exploration.

Always taking into consideration the preciousness of our beautiful environment, and the cultural heritage associated with it.

**Exploration without Devastation** is our motto in this space.

## ROM Management

Whether it be crusher Feed, rock breaking, finger management or all of the above, Marlee are experts in ROM management on any scale.

## Rehabilitation

As with our approach of minimal disturbance through exploration, we feel great gratitude when we are tasked with being the final piece of the mining puzzle through rehabilitation.

From exploration to full waste dump rehabilitation, we see it as a great privilege in ensuring this is delivered to the highest standard for future generations to enjoy.

**Marlee Resources** will always offer full transparency when scoping any future project, and this detail considered is what sets us apart from others.

It's also what sets both contractor and client up for success.

So please reach out when planning your next earthmoving project and allow us the privilege of being part of the discussions.

## Load & Haul

With an extensive fleet of earthmoving equipment and again, the expertise to deliver, Marlee Resources are well equipped to ensure piece of mind with your next Load & Haul contract, big or small.

## Road Maintenance

One of Marlee's long term contracts rendering us responsible for over 400km of road maintenance (well over half of which is on Shire roads) we are experts in road maintenance, reinstatement and construction.

## Crushing & Screening

Attempted by many, failed by most!

Successful and safe crushing and screening projects can only be delivered by those with a true understanding of the intricacies associated with these types of works.
