Cosmeceutical  
Ingredients**

Compounding of Dermatological  
and Cosmeceutical ingredients  
Is the art and science of  
customising a face, body or hand  
preparation just for your skin  
type and concerns.

## Anti-oxidants

### Idebenone:

A powerful antioxidant that brightens the appearance of the skin and helps to decrease fine lines and wrinkles.

### Alpha-lipoic Acid:

A potent anti-aging anti-oxidant that helps counteracts the skin's aging process. It increases the effects of Vitamin E and C. It provides cell protection and promotes the generation of new cells. Great for sun damaged skin.

### White Tea Extract: (certified organic)

Is a powerful anti-oxidant (more powerful than green tea). Protective against aging skin, helps to diminish the appearance of wrinkles and fine lines. Protects the skin from the drying effects of the sun.

## Vitamins

### Vitamin A:

(Retinol Molecular, Vitamin A palmitate)

Great antioxidant, helps with cell renewal. A Great ingredient for mature and acne prone skin.

### Vitamin B: (Niacinamide)

Is known to be beneficial for the reduction in fine lines, wrinkles and pore size. Known to boost collagen, decrease hyper-pigmentation and help regulate sebum production and reduce the appearance of redness.

### Vitamin C: (Sodium-l-ascorbyl-2-phosphate)

Anti-oxidant and helps lighten the skin. Also has a preservative action.

### Vitamin E:

A Great anti-oxidant and natural Non-GMO vitamin. Very nourishing and moisturising.

## Peptides

### Acetyl-hexapeptide 8:

'Botox' like affect. Anti-wrinkle - Smooths and relaxes the muscles & has skin tightening affect. Increases the production of collagen.

### Palmitoyl Pentapeptide 3:

Helps smooth and improve fine lines and wrinkles. Strengthens the skin barrier.

## Hydrating

### Hyaluronic acid 1% Aqueous Gel

Used to hydrate and plump the skin. It works deep down in the dermis to attract water to skin. It promotes skin circulation and nutrient absorption. Final result is a smoother, more hydrated and softer skin appearance therefore decreasing wrinkles and plumping the skin.

## Alpha Hydroxy Acids (AHA)

### Glycolic Acid:

Great AHA – Increases cell turnover & hydration, minimises pores and boosts collagen. Derived from sugar cane.

### Lactic Acid:

Increases cell turnover and hydration level.

Derived from fermented milk. Suitable for sensitive skin.

## Beta Hydroxy Acids (BHA)

### Salicylic Acid:

Gentle daily exfoliator for treatment of oily/acne that are prone to have open pores and blackheads

## Poly Hydroxy Acids (PHA)

### Gluconolactone:

A gentle ingredient that provides the anti-aging benefits of AHA's, without the irritation. Strengthens the skin's barrier over time. Good for acne/blemish and Rosacea skin types

## Skin Lightening

### Kojic Acid:

Skin lightening properties. Can be used with HQ or alone. Short term use only.

### Hydroquinone (HQ):

Skin lightening and bleaching affect, is very effective. Use only short term.

**Licorice Extract:** contains phytochemicals that can even out skin tone and provide anti-inflammatory benefits.

**Can also use: Vitamin C**

## Acne:

Salicylic acid, Niacinamide, Vitamin A & Alpha lipoic acid.

## Bases:

**Biopeptide Base**

**Cream Base,**

**Lotion Base**

**Gel Base**

**Eye Serum Base**

**Face Serum Base**

## Essential Oils:

Rosehip Oil (ACO)

Carrot Seed (ACO)

Mandarin (ACO)

Jasmine (absolute) 3% in Jojoba Oil

Chamomile Romans (ACO) 3% in Jojoba Oil

Neroli

Ylang Ylang

Rose Geranium

**Please Note:** AHA's, PHA's, BHA's and Vitamin A can be irritating to the skin. It is essential to wear a minimum of SPF 30+ whilst using these ingredients on your face and neck.
